Run description:

Start from the Fisherman's Paradise parking lot (head of the trail) and follow the trail along the Spring Creek for 15-25 min (depending on preference) then turn around and return the same way.

If you reach the bridge, where trail crosses to the other side of the creek, turn around at that point.

Beware of people walking, running, biking fishing on the creek.

It is a flat, pretty, partially shaded running trail with a lot of nature around. You would enjoy it in any weather.
